

# ROOD REVIEW

THE COUNTDOWN IS ON...

»»» APRIL 2022

THIS MONTH, WE WILL CELEBRATE THE FEAST OF PASSOVER AFTER THE REQUIRED ADAR BET. JUST AFTER THE CELEBRATION OF PASSOVER, THERE IS A VERY IMPORTANT QUIET TIME. THE FIFTY DAYS, OR SEVEN SABBATHS, FROM PASSOVER TO SHAVUOT ARE A BRIDGE BETWEEN THE SPRING FEASTS OF THE LORD. THE TORAH INSTRUCTS US:

*"And you shall count unto you from the morrow after the Sabbath, from the day that you brought the sheaf of the wave offering, seven Sabbaths shall be complete. Unto the morrow after the seventh Sabbath shall you number fifty days..."*

~ Leviticus 23:15-16

As we count the days from Passover to Shavuot, we are walking with the Israelites from the Exodus out of Egypt, across the Red Sea, and through the desert to Mount Sinai. They would not become his people until they made the 40-day journey to the burning mountain where he would give them the Torah. Along the way, the people would learn important lessons about trusting him; they would be part of the picture the Almighty carefully crafted of the coming Messiah.

The same count that takes the Israelites from Egypt to Mount Sinai also paces out the time from the resurrection of our Messiah to the gifting of the Holy Spirit. Counting the days to Shavuot anticipates the gift our risen Messiah gave at the completion of his ministry. He did not leave us empty-handed, but rather empowered us with the Holy Spirit to teach and live according to the Word so that we may live eternally with him.

This count is also called the "Counting of the Omer." An "omer" is a unit of measurement used for the grain offering on The Day of First Fruits. Every day that we count the "omer," we can also think of the offering to the Almighty. This count is not a lull between feasts; it is a lifeline. It is a time filled with anticipation and expectation that leads to blessing.

So, as you count the "omer" this year, remember the Exodus of the Israelites from their bondage in Egypt. Remember how Yeshua fulfilled the prophecies given in the Passover celebration. And count your blessings as we look forward to the day we will spend eternity with Him.

**See you when the smoke clears,**

# ! FOOD FRAUD

BY SCOTT LAIRD, ND

Several cancers, type-2 diabetes, heart disease, and many other feared diseases all have the same root: FOOD. They're simply the result of cellular malfunction due to poor food and lifestyle choices. Food is our fuel; it's what makes us "go." Just like choosing the right fuel for your car, choosing what we eat determines whether our body operates the way it is supposed to. Even King Solomon talked about food choices, sugar in particular:

*"Have you found honey? Eat only as much as you need, Lest you be filled with it and vomit."*

- Proverbs 25:15

Of course, this verse also has meaning for personal relationships, but its dietary truth hasn't changed since it was written. Unfortunately, it's not always simple to identify what constitutes "good" food. Clever number skewing, missing details and small survey samples can all be used to whitewash nutritional research findings so that they benefit a certain industry or company. Here's an example of how the deception works, from the pharmaceutical world.

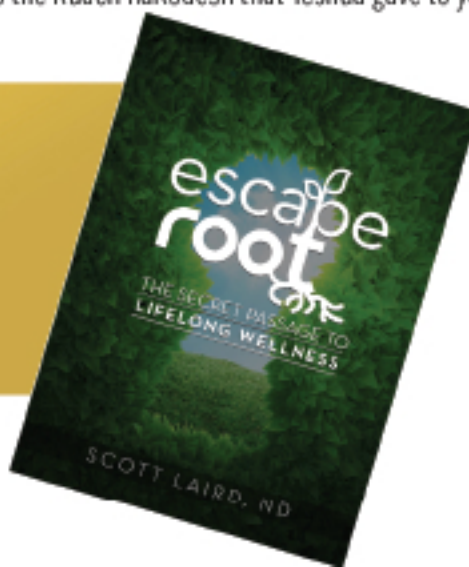

Let's say you have a cancer prevention drug trial including 100 participants. The researchers assume that two participants are likely to get cancer. If, by the conclusion of the trial, only one person actually gets cancer, logic says that the drug was only 1% effective because it only "prevented" cancer in one out of 100 people. This calculation is called an "absolute benefit". However, the drug company that sponsored the trial spent a lot of money and time on this trial. Furthermore, no one is going to buy a drug that is only 1% effective. So, using the same numbers, but from a different perspective, the drug company will report things this way: Since two people were "expected" to get cancer, and the drug prevented cancer in one of those two people (i.e. 1/2), the drug is determined to be 50% effective. This is called a "relative benefit" and, completely legally, the drug can be marketed using this number.

Thankfully, smart consumers and medical freedom fighters like you are not taking these findings at face value anymore. Remember, if some new food fad or medical treatment sounds too good to be true, listen to the Ruach haKodesh that Yeshua gave to you. It may be a still, small voice... but it's the right one.

# THE RESURRECTION OF PASSOVER

WITH KEITH JOHNSON

WHAT DO AN EGG-LAYING RABBIT AND A BABYLONIAN FERTILITY GODDESS HAVE TO DO WITH THE RESURRECTION OF OUR HEBREW MESSIAH? GOOD QUESTION.

In "The Resurrection of Passover," Keith Johnson leads us through the dispensational disaster of mixing the holy with the profane, truth with mythology, and how a translational conspiracy was devised to crucify Passover itself.

Learn how Passover became Easter – and what you can do to resurrect the truth!
